OUR SAFETY PROGRAM

Our safety program is an integral part of the construction project. Full-time safety and health professionals are involved in the planning activities beginning at the preconstruction phase of all projects.

Potential liability exposures are identified and managed through site survey (outside professional's document pre-existing conditions if necessary), communication with utilities companies, and with adjacent buildings or communities.

Occupational Health, Safety and Environment management

The occupational health and safety of employees in all our sites remains a very significant focus of management's attention to ensure *"every employee return home with no harm"*

The company is extremely serious about maintaining safe operations and views OHS of her employees as a critical part of its business.
